UX + UI + DEV.

La nostra aspirazione,
la nostra responsabilità

Migliorare

1. La soddisfazione
2. L'esperienza
3. L'usabilità
4. L'accessibilità
5. L'interazione
6. Il piacere

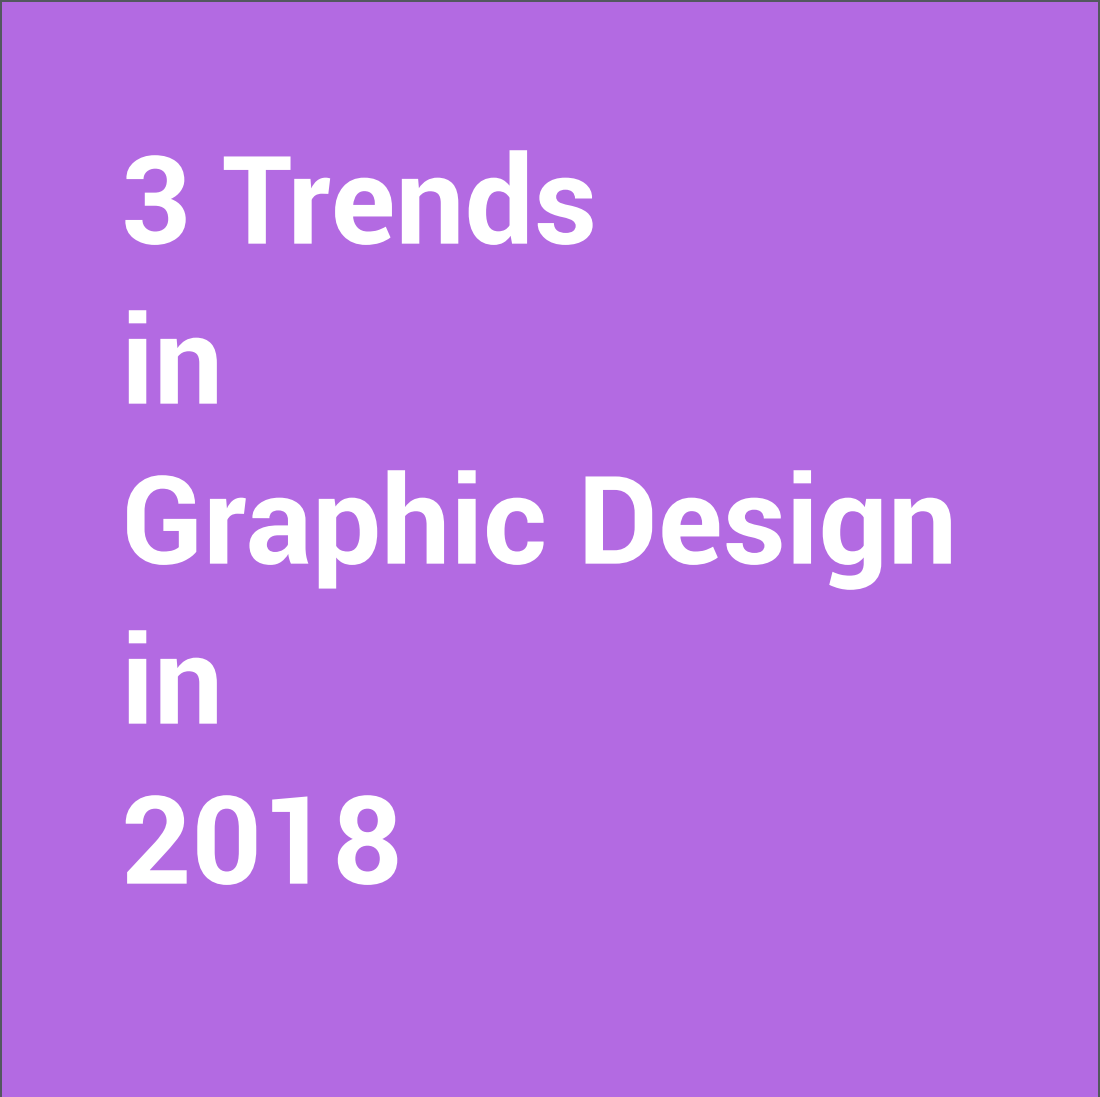

**Gli utenti per i
quali realizziamo
un progetto
possono essere
profondamente
diversi da noi.**

**C'è più cultura, c'è più
conoscenza.**

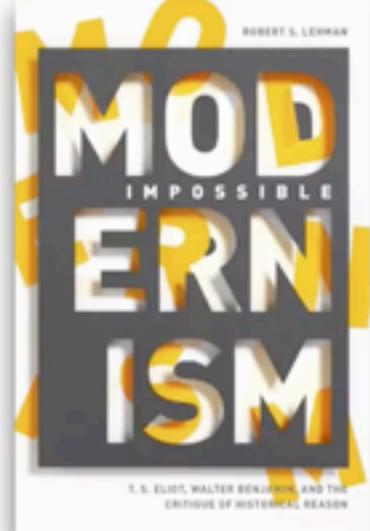

C'è grande aspettativa

A GOOD UI

Suggerimenti di
buon senso per
essere più
efficienti

Bilbo: *Va tutto bene? Gandalf,
dove vai?*

Gandalf: *A cercare la
compagnia dell'unico
qui che ha un minimo di
buon senso.*

Bilbo: *E chi è?*

Gandalf: *IO STESSO, signor
Baggins. Ne ho
abbastanza di
nani per
un giorno solo.*

Una colonna semplifica la lettura

Ripetere male non fa... con parsimonia

Essenzialità delle Form

The image shows two hand-drawn wireframes of web forms. The left form is titled 'Sign Up For Our Product' and contains three input fields: 'Name', 'Email', and a blue 'Sign Up' button. The right form is also titled 'Sign Up For Our Product' but is more complex, featuring six input fields: 'First Name', 'Last Name', 'Email', 'Retype Email', 'Favorite Color' (with a dropdown arrow), and 'Country of Residence' (with a dropdown arrow). Below these is a field labeled 'Field Added With Design By Committee'. A large diagonal line is drawn across the entire right form, indicating it is less preferred or less essential than the left one.

Colour Contrast Check

the transcendence
of our transience.

HELLO.

MY NAME IS DESPERATION AND I AM A GHOST, TRANSIENT AND EMPTY. I AM THE ATROCITY WHICH MY ENVIRONMENT HAS CREATED. I SLEEP BUT DO NOT REST, I BREATHE BUT DO NOT LIVE. I AM THE BOTTOM OF THE OCEAN WHERE NOTHING ELSE CAN BE. I AM THE FIELD AT NIGHT WHERE BIRDS GATHER. THE WATCH ON MY WRIST IS MORE A MEASURE OF WHO I AM THAN ANYTHING I COULD DO OR SAY. I AM A TREE ROOTED IN SOIL THAT CANNOT SUSTAIN ME. I AM ME, I AM US, I AM THEM. I AM NOTHING AND I AM EVERYTHING. I AM HUMAN, I AM FLEETING. HELLO MY NAME IS DESPERATION AND I AM A GHOST, TRANSIENT AND EMPTY.

Grids should be responsive by nature.

le griglie sono ancora utili per la progettazione dell'interfaccia, ma i vari device sono molto più complessi della pagina stampata.

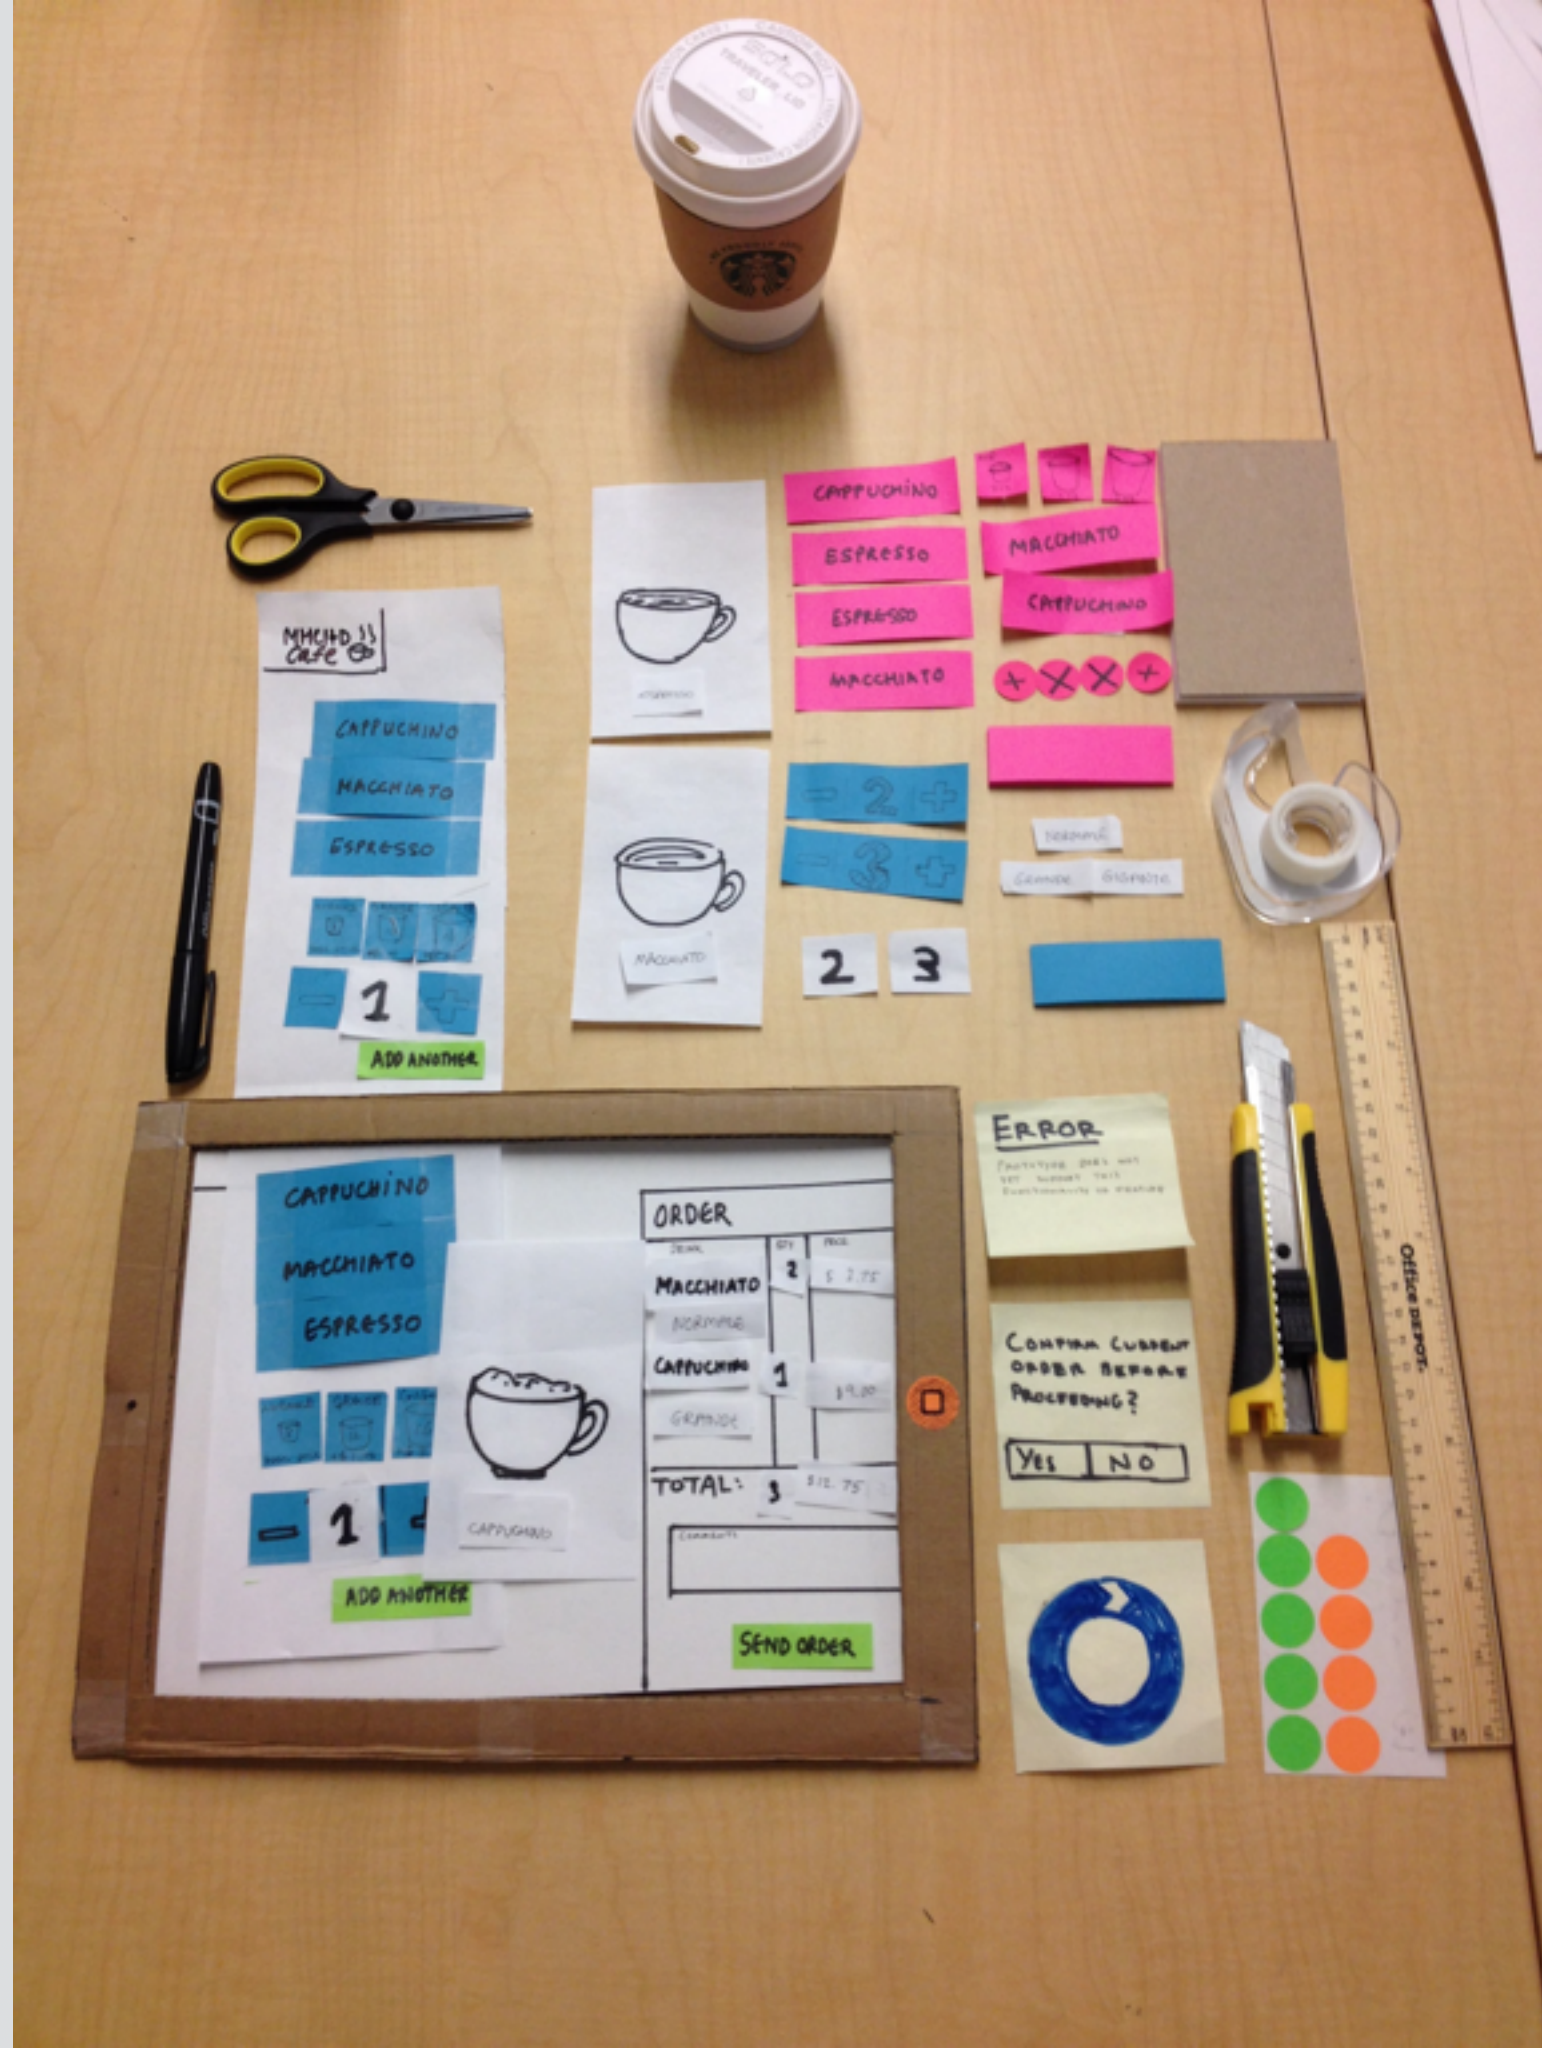

Il supporto ed il contenuto sono altamente variabili.

This is a nice beach.

Rack mount LCD monitors can save you a lot of space and help you form a convenient and efficient desktop for your work or home study. The rack mount is set up so that the keyboard and LCD monitor are on a sliding rack that let you move them out from your desk or over it. Once you decide to invest in the rack mount LCD monitor, you will have to install the rack and the monitor. Here, then, are steps in installing rack mount LCD monitors.

The first step in installing rack mount LCD monitors is to get out and get one. They are available at most any home office or electronics store. Since the rack mounts are becoming more popular, they are easier to find now than ever before.

Responsive Storytelling

Resize the browser window slowly.

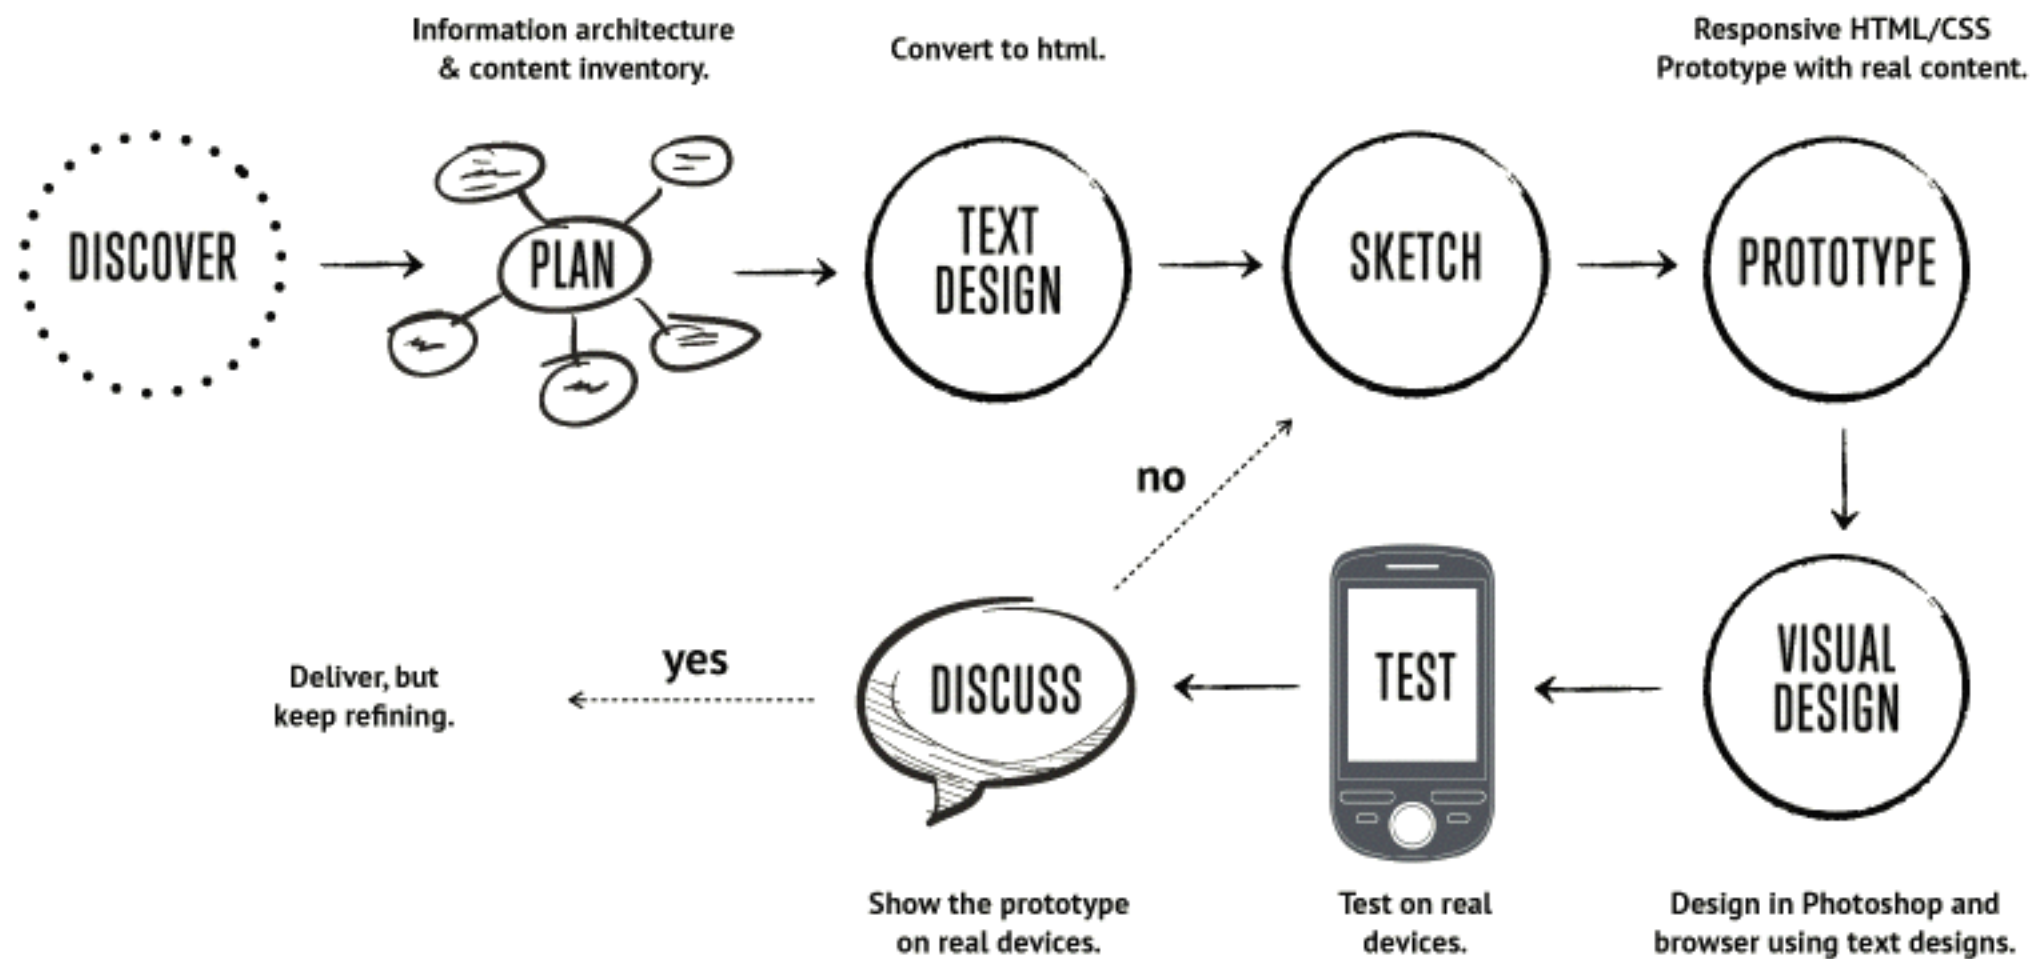

DESKTOP ONLY. Make sure to go below 500px and above 2000px.

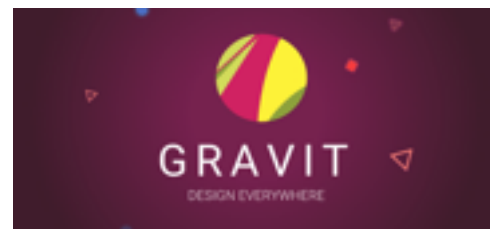

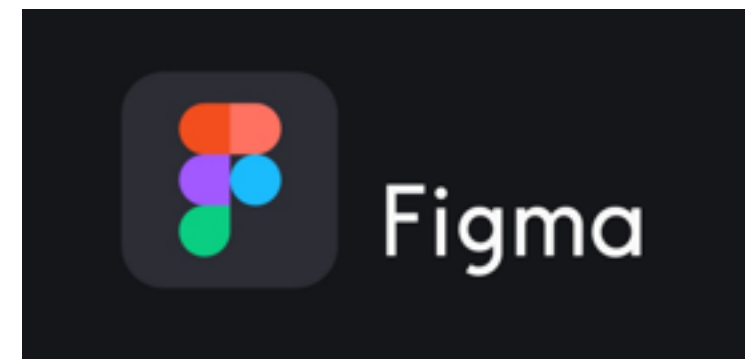

Wait a minute!

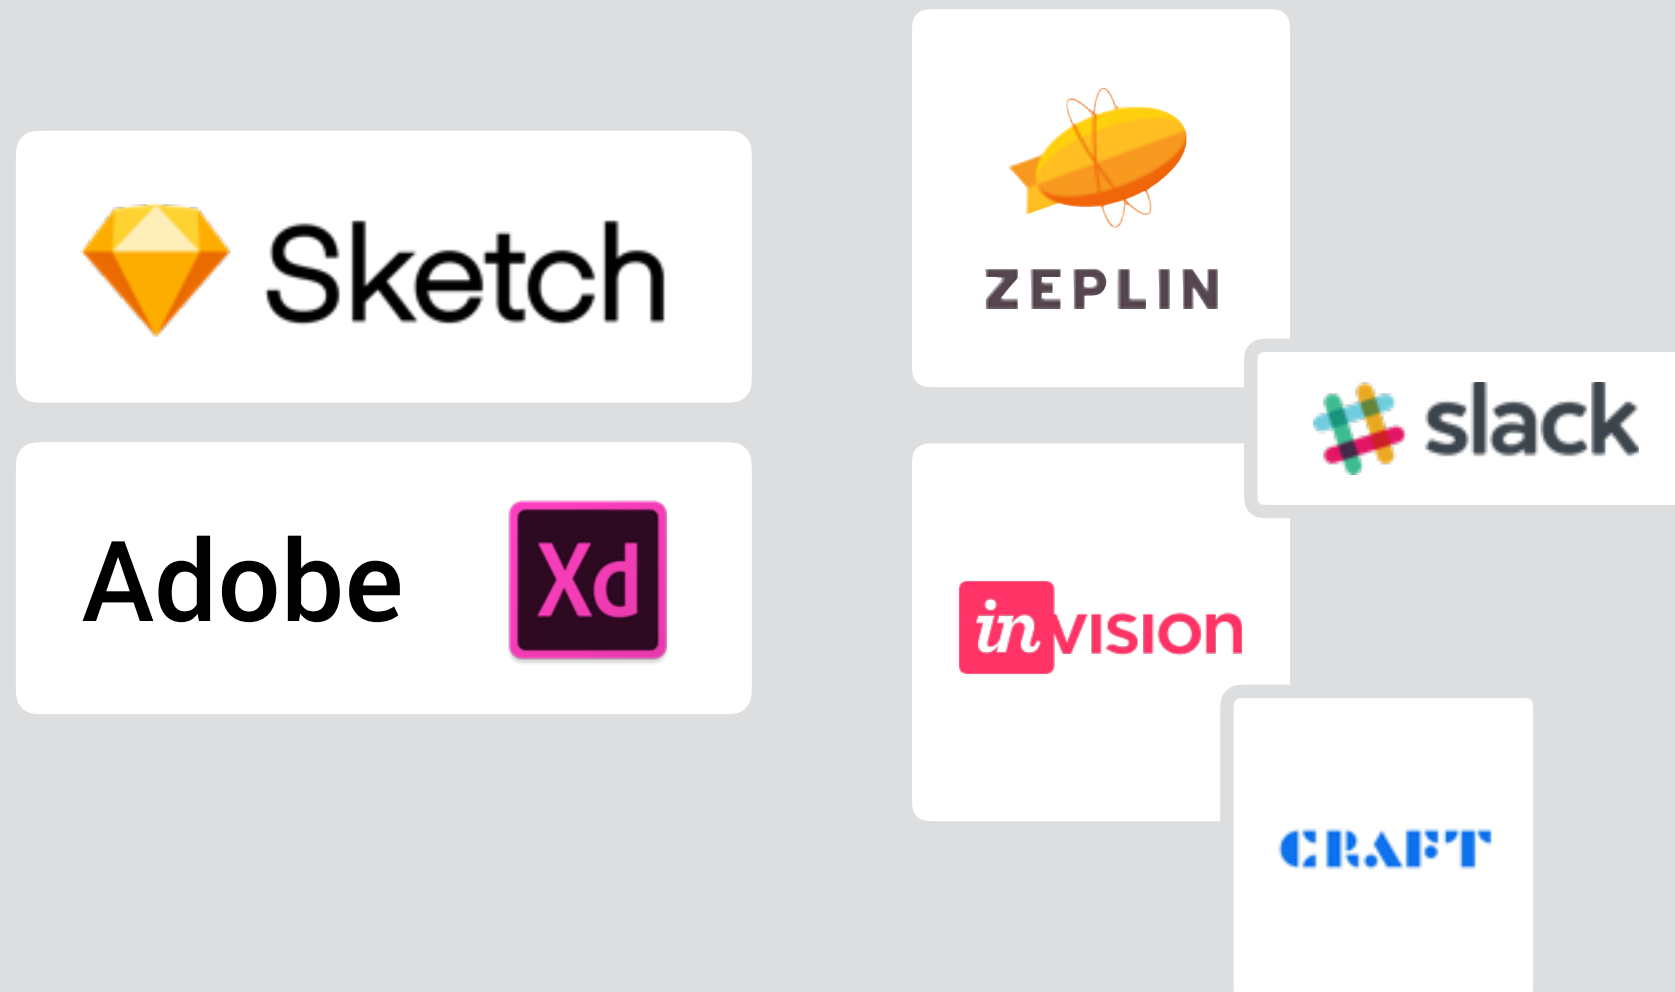

**Workflow
+
Tool**

**Il tempo nella vita degli sviluppatori è tra i valori più preziosi.
Un aiuto per lavorare meglio in gruppo.**

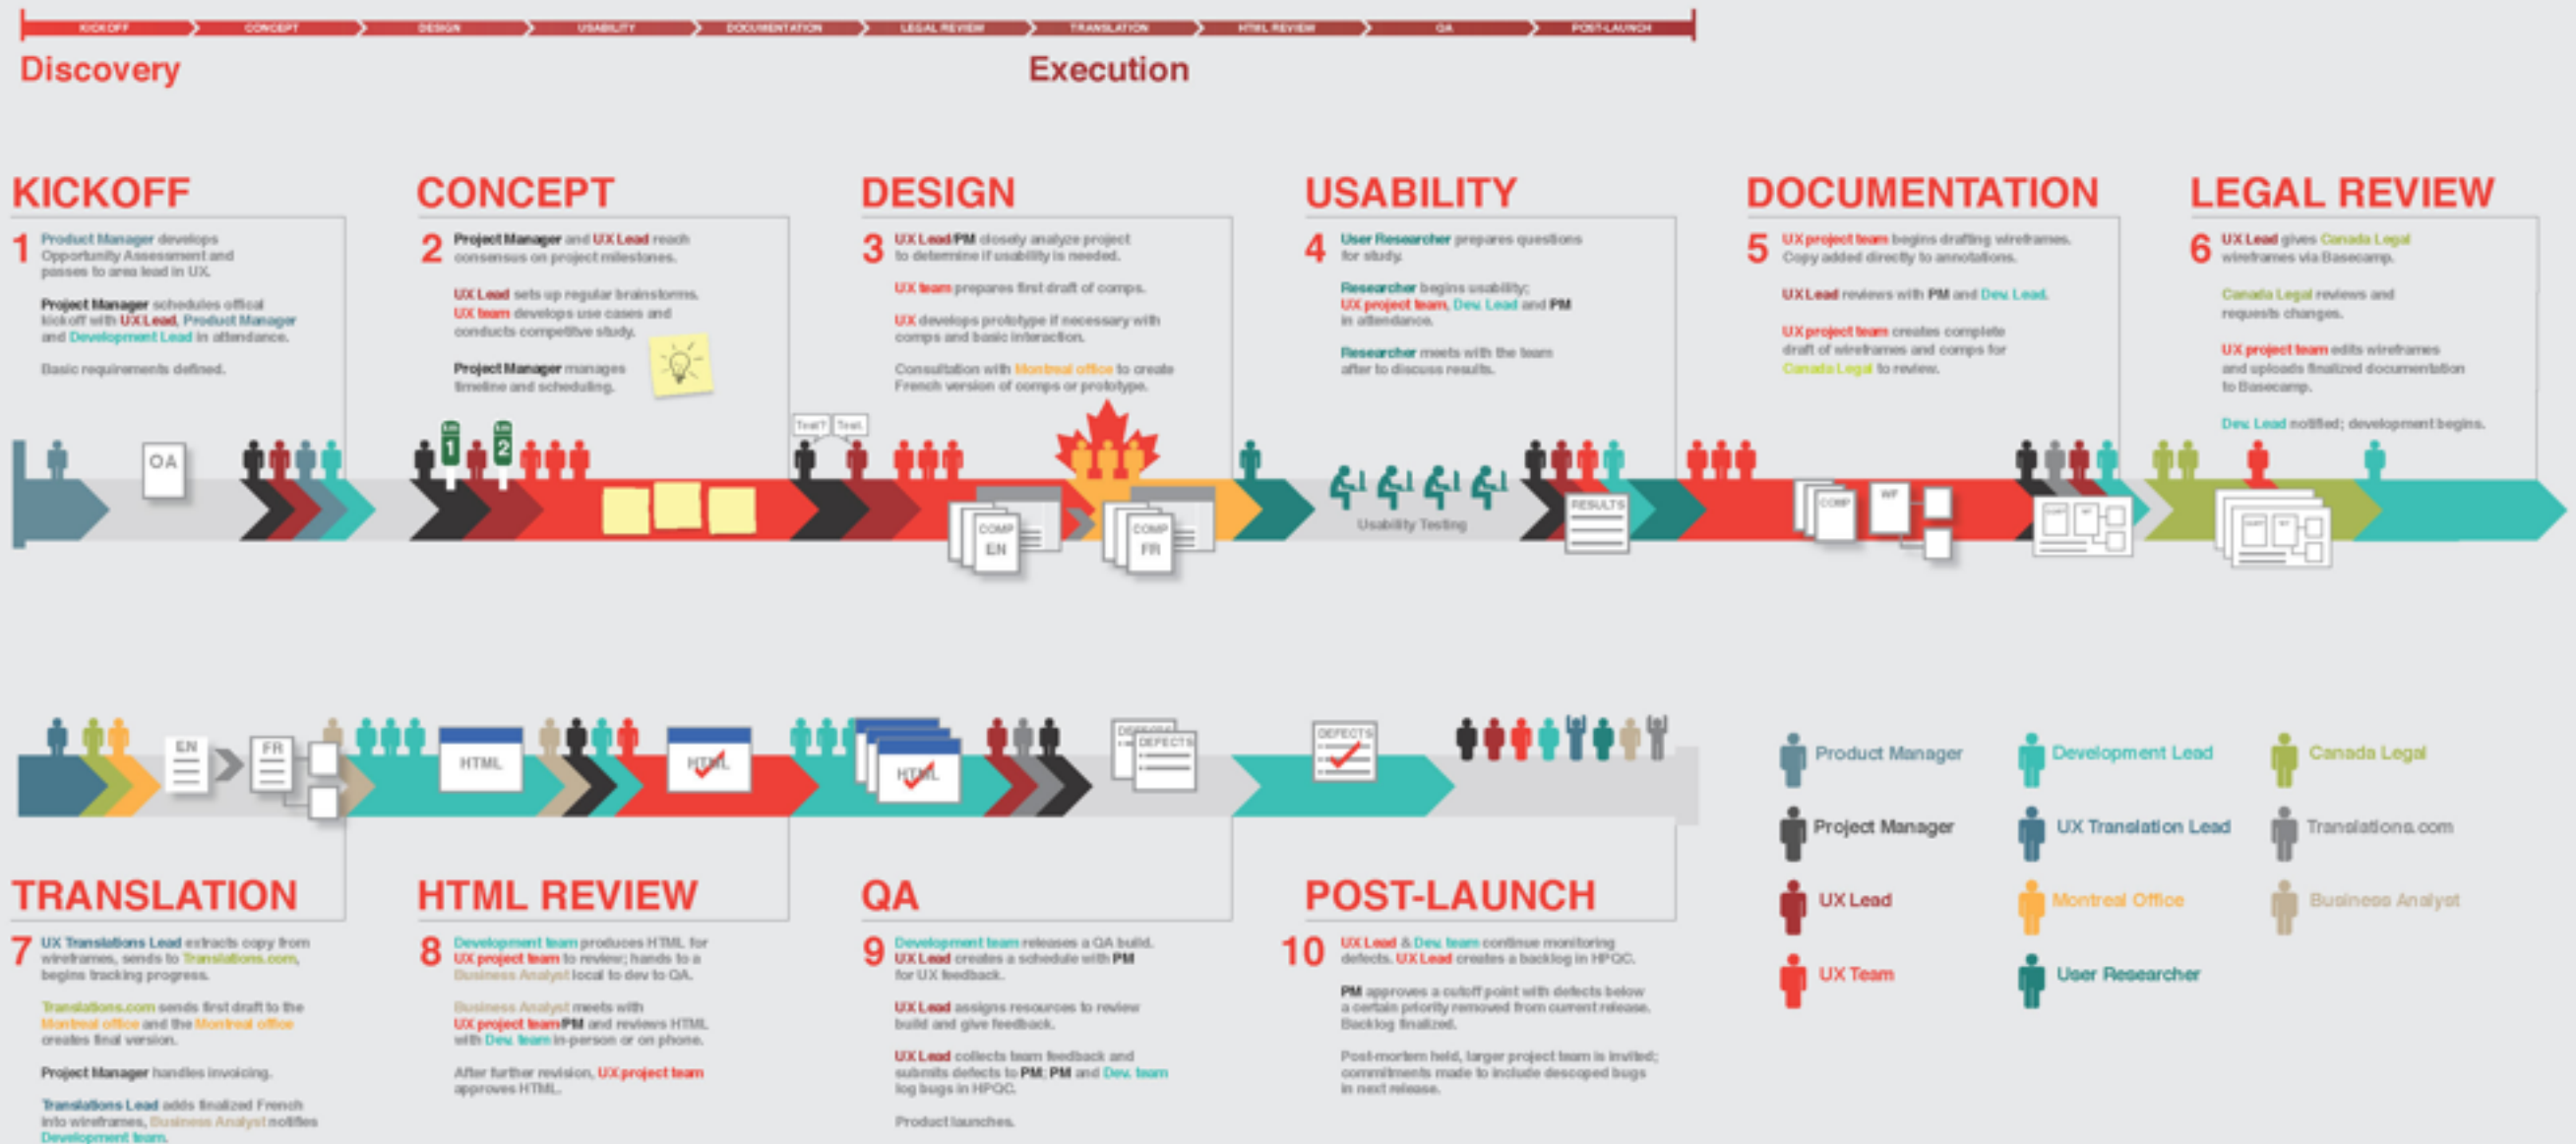

Condividere le specifiche del progetto, gli stili e le risorse. Consente ai team di ispezionare tutti gli elementi che compongono il progetto, di lasciare commenti, ecc.

1. **Zeplin** è una **piattaforma collaborativa** pensata per semplificare il lavoro di Web designer e sviluppatori su progetti implementati tramite Sketch, nota applicazione per il Digital Design professionale.
2. L'obiettivo di questo servizio è quello di fornire degli strumenti completi per la **comunicazione** e la **condivisione di risorse**, limitando la necessità di meeting per la definizione delle styleguide, automatizzando i processi produttivi e risparmiando tempo.
3. **Zeplin** archivia tutte le risorse sul **Cloud**, in questo modo i membri di un team hanno sempre la possibilità di accedere agli aggiornamenti più recenti delle styleguide.
4. Qualsiasi progetto può essere connesso ad un canale **Slack** e chiunque vi stia lavorando può notificare istantaneamente l'upgrade effettuato a carico del design su chi si sta collaborando.

Stefano Meneghetti

Stefano Meneghetti è nato a Milano nel 1964. Conosce bene l'ambiente delle agenzie di comunicazione milanesi e nel 1995, agli albori di internet, inizia a costruire e sperimentare tutto ciò che è comunicazione legata al web.

Co-fondatore di YALP è Digital Art director, ha contribuito a organizzare i progetti "Quanto?", "Felicity", "Natural Recall". Nel 2008, organizza la conferenza "Dolore (in)utile" a Venezia. Ha tenuto corsi presso la Scuola Internazionale di grafica di Venezia; Oppi, Formazione domani e Politecnico di Milano; Università degli studi di Torino.
